

Volleyball Scoring Software

# Installation Notes

## PC Minimum System Requirements

VolleyWrite is designed to run on a PC with the following attributes:

- ▶ Operating System: Windows 10, 8, 7 (SP1) and Vista (SP2)
- ▶ Disk Space: 200 Megabytes
- ▶ Memory: 2 Gigabytes
- ▶ Adobe Reader: Available via free download from [Adobe.com](http://Adobe.com)
- ▶ .Net Framework: Version 4.5 or later (usually included in Windows)  
Available via free download from [Microsoft.com](http://Microsoft.com)

## Product Key Application

If you do not have the VolleyWrite app, click on the green [VolleyWrite](#) button on the [Resources page](#) at [VolleyWrite.com](http://VolleyWrite.com) to download the installer, then run it.

1. Upon purchasing VolleyWrite, you should have received an e-mail message containing a product key and instructions. Check your spam folders too!
2. Open the e-mail message to extract the product key. Select the entire key with your cursor, beginning with "VW" and ending with "==".
3. Use the Control C function to copy the key text into your buffer.
4. Start VolleyWrite by double-clicking the VolleyWrite icon on your computer desktop. VolleyWrite opens on the Welcome tab. If you are not prompted to enter a new product key, click on the [Extend License](#) button.
5. Use the Control V function to copy the key from the buffer into the box.
6. Once a product key has been entered, VolleyWrite indicates the expiration date on the bottom of the Welcome Tab.
7. The product key does not have to be entered again when a new version of VolleyWrite is installed.
